INDEPENDENT AUDITOR'S REPORT

Members of the Board of Directors Willow Brook Metropolitan District Fort Collins, Colorado

We have audited the accompanying financial statements of the governmental activities, business-type activities, and each major fund of Willow Brook Metropolitan District (the "District") as of and for the year ended December 31, 2019 and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, and each major fund of Willow Brook Metropolitan District, as of December 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other-Matters

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Willow Brook Metropolitan District's financial statements as a whole. The other supplementary information sections are presented for purposes of additional analysis and are not a required part of the financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and as also not a required part of the basic financial statements.

The other supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 19, 2020, on our consideration of Willow Brook Metropolitan District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Willow Brook Metropolitan District's internal control over financial reporting and compliance.

NOTE 1 – DEFINITION OF REPORTING ENTITY

Willow Brook Metropolitan District (District), a quasi-municipal corporation and political subdivision of the State of Colorado, is governed pursuant to provisions of the Colorado Special District Act. The District's service area is located in Summit County, Colorado. The District was established to provide water, recreation and street maintenance services within its boundaries.

The District has no employees and all operations and administrative functions are contracted.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements, which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The more significant accounting policies of the District are described as follows:

Government-wide and Fund Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These financial statements include all of the activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Both statements distinguish between governmental activities, which normally are supported by taxes and intergovernmental revenues, and business-type activities, which rely to a significant extent on fees and charges for support.

The statement of net position reports all financial and capital resources of the District, the difference between the assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as net position.

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met. Depreciation is computed and recorded as an operating expense. Expenditures for capital assets are shown as increases in assets and redemption of bonds and notes are recorded as a reduction in liabilities. Tap fees are recorded as capital contributions when received.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The major sources of revenue susceptible to accrual are property taxes, specific ownership taxes and trash service fees. Expenditures, other than interest on long-term obligations, are recorded when the liability is incurred or the long-term obligation paid. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental fund:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The District reports the following major proprietary fund:

The Water Fund accounts for the water operations that are financed and operated in a manner where the intent of the District is that the costs of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges. The

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

District accounts for capital purchases in a Capital Projects Fund which is combined with the Water Fund for financial reporting purposes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating revenues consist of charges to customers for service provided. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses or capital contributions.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Budgets

In accordance with the Local Government Budget Law of Colorado, the District's board of directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at year end. The District's board of directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated.

For District management purposes, the District adopts budgets for the General Fund, Capital Projects Fund and the Water Fund. However, for financial reporting purposes the Capital Projects Fund is combined into the Water Fund as the capital projects are related to water operations. The Water Fund appropriation of \$2,003,689 for financial reporting purposes is comprised of adopted budget amounts of \$1,958,089 for the Capital Projects Fund and \$45,600 for the Water Fund.

Pooled Cash and Investments

The District follows the practice of pooled cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single bank account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each funds' average equity balance in total cash.

Customer Accounts Receivable

Due to the broad powers of collection, no allowance for uncollectible customer accounts receivable has been reported.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property Taxes

Property taxes are levied by the District's board of directors. The levy is based on assessed valuations determined by the county assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the county commissioners to put the tax lien on the individual properties as of January 1 of the following year. The county treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April 30 or if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The county treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflows of resources in the year they are levied and measurable. The deferred inflows of resources related to property tax revenues are recorded as revenue in the year they are available or collected.

Capital Assets

Capital assets, which include land, water rights, road improvements, bridge improvements, buildings and improvements and water system, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The cost of water rights includes acquisition cost, legal and engineering costs related to the development and augmentation of those rights. Since the rights have a perpetual life, they are not amortized. All other costs, including costs incurred for the protection of those rights, are expensed.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable. Depreciation expense has been computed using the straight-line method over the following estimated economic useful lives:

Road improvements	5 years
Buildings and improvements	10-30 years
Bridge improvements	30 years
Water system and equipment	3-40 years

Deferred Inflows of Resources

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The revenue continues to be recognized when earned in the government-wide statements. The District has one item that qualifies for reporting in this category. Accordingly, the item, deferred property tax revenue, is deferred and recognized as an inflow of resources in the period that the amount becomes available.

Tap Fees and Contributed Lines

Tap fees are recorded as capital contributions when received. Lines contributed to the District by developers are recorded as capital contributions and additions to the systems at estimated fair market value when received.

Fund Balances - Governmental Funds

The District's governmental fund balances may consist of five classifications based on the relative strength of the spending constraints:

Nonspendable fund balance - the amount of fund balance that is not in spendable form (such as inventory or prepaids) or is legally or contractually required to be maintained intact.

Restricted fund balance - the amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Committed fund balance - amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority (i.e., Board of Directors). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint.

Assigned fund balance - amounts the District intends to use for a specific purpose. Intent can be expressed by the District Board of Directors or by an official or body to which the District board of directors delegates the authority.

Unassigned fund balance—amounts that are available for any purpose.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds and finally unassigned funds, as needed, unless the District board of directors has provided otherwise in its commitment or assignment actions.

NOTE 3 - CASH AND INVESTMENTS

Cash and investments as of December 31, 2019 are classified in the accompanying financial statements as follows:

Cash and investments \$ 677,348

Cash and investments as of December 31, 2019 consist of the following:

Deposits with financial institutions	\$ 37,012
Investments	 640,336
	\$ 677,348

Deposits with Financial Institutions

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least equal to 102% of the aggregate uninsured deposits.

The state commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

At December 31, 2019, the District's cash deposits had a bank balance of \$58,979 and carrying balance of \$37.012.

Credit Risk

Investments

The District has not adopted a formal investment policy however, the District follows state statutes regarding investments.

Colorado State Statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

NOTE 3 - CASH AND INVESTMENTS (CONTINUED)

- . Obligations of the United States and certain U.S. government agency securities and the World Bank
- . General obligation and revenue bonds of U.S. local government entities
- . Bankers' acceptances of certain banks
- . Commercial paper
- . Certain reverse repurchase agreements
- . Certain securities lending agreements
- . Certain corporate bonds
- . Written repurchase agreements collateralized by certain authorized securities
- . Certain money market funds
- . Guaranteed investment contracts
- . Local government investment pools

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the board of directors. Such actions are generally associated with a debt service reserve or sinking fund requirements.

At December 31, 2019, the District had the following investments:

<u>Investment</u>	<u>Maturity</u>	<u>Fair Value</u>
Colorado Local Government Liquid	Weighted average	
Asset Trust	under 60 days	<u>\$ 640,336</u>

Colotrust

During 2019, the District invested in the Colorado Local Government Liquid Asset Trust (Colotrust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing Colotrust. Colotrust operates similarly to a money market fund and each share is equal in value to \$1.00. Colotrust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper, and repurchase agreements collateralized by certain obligations of U.S. government agencies. A designated custodial bank serves as custodian for Colotrust's portfolios pursuant to a custodian agreement.

NOTE 3 - CASH AND INVESTMENTS (CONTINUED)

The custodian acts as safekeeping agent for Colotrust's investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by Colotrust. As of December 31, 2019, the District had \$640,336 invested in COLOTRUST PLUS+ in the name of the District. Colotrust is rated AAA by S&P Global Ratings.

Investment Valuation

Certain investments that are measured at fair value on a recurring basis are categorized within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

However, the District's investments are not measured at fair value and are therefore not categorized within the fair value hierarchy. These investments include 2a7-like external investment pools. The District is permitted in certain circumstances to establish the fair value of an investment that does not have a readily determinable fair value by using the net asset value (NAV) per share (or its equivalent) of the investment.

Colotrust determines the NAV of the shares of each portfolio as of the close of business on each day. The NAV per share of each portfolio is computed by dividing the total value of the securities and other assets of the portfolios, less any liabilities, by the total outstanding shares of the portfolios. Liabilities, which include all expenses and fees of Colotrust, are accrued daily. The NAV is calculated at fair value using various inputs to determine value in accordance with FASB guidance. It is the goal of Colotrust to maintain a NAV of \$1.00 per share, however changes in interest rates may affect the fair value of the securities held by Colotrust and there can be no assurance that the NAV will not vary from \$1.00 per share.

NOTE 4 - CAPITAL ASSETS

An analysis of the changes in capital assets for the year ended December 31, 2019 follows:

Depreciation of the governmental activities is charged to the general government function/program.

NOTE 5 – LONG-TERM OBLIGATIONS

The following is an analysis of the changes in the District's long-term obligations for the year ended December 31, 2019:

Balance at December 31,							Balance at cember 31,	,	Due Within
Business-Type Activities		2018		Additions	Red	luctions	2019	O	ne Year
CWR&PDA Loan #D19F427	\$	=	\$	1,404,992	\$	-	\$ 1,404,992	\$	40,645
	\$	-	\$	1,404,992	\$	-	\$ 1,404,992	\$	40,645

The District entered into a \$1,750,000 Drinking Water Revolving Fund Direct Loan, dated April 24, 2019, with 2.5% interest, payments commencing May 1, 2020 and a term of 20 years. The purpose of the loan is to provide funding for improvements to the District's water system. At the

NOTE 5 – LONG-TERM OBLIGATIONS (CONTINUED)

end of 2019 the District has borrowed \$1,404,992 and the loan agreement allows for additional reimbursements in the amount of \$345,008, up to a total of \$1,750,000. Principal and interest payments of \$56,784 are payable semi-annually on May 1 and November 1 until the final maturity date of November 1, 2039. The District may prepay the loan, in whole or in part without penalty.

Significant events of default under the loan include (i) failure to pay within 30 days, (ii) failure to pay principal and interest on any bonds, notes or other obligations, (iii) failure to meet financial or custodial agreement covenants, (iv) any representation made that is false or misleading in any material respect, (v) a petition if filed for bankruptcy or insolvency.

Immediately upon the occurrence of an event of default or the failure of the lender to receive any payment of principal or interest on the due date thereof, the loan balance shall bear interest at the greater of twelve percent per annum or the Prime Rate plus one half of one percent per annum, but in no event in excess of the maximum rate permitted by law.

The following table sets forth the estimated debt service payment schedule for the principal and interest on the loan:

Year Ending December 31,	Principal	Interest	Total		
2020	\$ 40,645	\$ 25,450	\$ 66,095		
2021	71,278	42,291	113,569

2025-2029	413,935	153,910	567,845		
2030-2034	468,686	99,159	567,845		
2035-2036	185,674	22,273	207,947		
	\$1,404,992	\$ 459,016	\$1,864,008		

NOTE 6 – INTERGOVERNMENTAL AGREEMENT

Town of Silverthorne

On June 1, 1995, the District entered into an intergovernmental agreement to purchase treated water from the Town of Silverthorne (the Town). The District agreed to purchase 28 water taps for original residences at a cost of \$2,800 per tap totaling \$78,400. The final payment was made in 1999. Any future water taps purchased will be charged at the Town's existing published rates

NOTE 6 – INTERGOVERNMENTAL AGREEMENT (CONINUTED)

for Town residents. The District has built the connection to the Town's water system, including a master meter and will purchase water necessary to supplement the District's supply. The District is responsible for reading customer meters within the District and billing customers for water used. The District will be charged at the rate of 1-1/2 times the rate for the Town's residents and will be billed by the Town quarterly for each quarter of the calendar year during which water is actually delivered to the District.

NOTE 7 – FUND EQUITY

At December 31, 2019, the District reported the following classifications of fund equity.

Nonspendable Fund Balance

The nonspendable fund balance in the General Fund in the amount of \$395 is comprised of prepaid amounts which are not in spendable form.

Restricted Fund Balance

The restricted fund balance in the General Fund in the amount of \$10,800 is comprised of the emergency reserves that have been provided for as required by Article X, Section 20 of the Constitution of the State of Colorado (see Note 9).

Assigned Fund Balance

The assigned fund balance in the General Fund in the amount of \$68,082 is comprised of amounts assigned by the Board of Directors by a resolution to eliminate the projected budgetary deficit in the subsequent year's budget.

NOTE 8 - NET POSITION

The District's net position consists of three components – net investment in capital assets, restricted and unrestricted.

The net investment in capital assets consists of capital assets, net of accumulated depreciation and debt. As of December 31, 2019, the District had net investment in capital assets of \$1,295,241, comprised of \$124,974 in the governmental activities and \$1,170,267 in the business-type activities.

Restricted assets include net assets that are restricted for use either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law

NOTE 8 – NET POSITION (CONTINUTED)

through constitutional provisions or enabling legislation. The District's restricted net position at December 31, 2019 is as follows:

	ernmental ctivities	iness-type ctivities	Total		
Restricted net position: Emergency reserves (see Note 9)	\$ 10,800	\$ 48,500	\$	59,300	
	\$ 10,800	\$ 48,500	\$	59,300	

In the government-wide financial statements, the District's unrestricted net position at December 31, 2019 totaled \$559,715, comprised of \$420,462 in the governmental activities and \$139,253 in the business-type activities.

NOTE 9 - RISK MANAGEMENT

Except as provided in the Colorado Governmental Immunity Act, the District may be exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets, errors or omissions, injuries to employees or acts of God.

The District is a member of the Colorado Special Districts Property and Liability Pool (Pool) as of December 31, 2019. The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, boiler and machinery and workers compensation coverage to its members.

The District pays annual premiums to the Pool for liability, property, public officials' liability, boiler and machinery and workers compensation coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula. Settled claims have not exceeded this coverage in any of the past three fiscal years.

NOTE 10 - TAX, SPENDING AND DEBT LIMITATIONS

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue and debt limitations that apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish emergency reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

On November 7, 1996, the eligible electors of the District authorized the District to: (1) collect in fiscal year 1996 and subsequent fiscal years thereafter additional property tax revenue from its mill levy, without an increase in the rate thereof, and from specific ownership taxes, interest income, and any other income of the District in excess of the rate of inflation in the prior calendar year plus annual local growth, and in excess of 105.5 percent of the property tax revenue of the District collected in the respective prior fiscal year for general operating and maintenance expenditures; and (2) implement and increase in fiscal year spending greater than the rate of inflation in the respective prior calendar year plus annual local growth, as described in (1).

On May 4, 2010, the eligible electors of the District approved the following ballot measure:

Shall Willow Brook Metropolitan District taxes be increased \$140,000 annually commencing in 2010, and by whatever amount of revenue is generated annually in 2011 and every year thereafter until 2021, by the imposition of a capital expenditures mill levy of 17.474 mills (which levy shall be in addition to any other mill levy imposed by the District) said levy to be adjusted up or down to account for any general reassessment of taxable property valuations by Summit County or legislative or constitutional changes in the method or percentage for calculating District assessed values, and in each year imposed at a rate determined by the board of directors of the District within such limitations; and shall the proceeds from such mill levy be allocated and restricted so that the proceeds shall be budgeted and spent solely to pay the costs of such water system improvements, repairs, replacements, extensions, additions and acquisitions (including the repayment of any debt issued to pay said costs, and including appurtenant land and easements) as the board deems necessary or proper; and shall the proceeds of such taxes and investment income thereon constitute voter-approved revenue changes and be collected and spent by the District each year, without limiting or affecting the collection or expenditure of other revenues, and without regard to any spending, revenue-raising,

NOTE 10 - TAX, SPENDING AND DEBT LIMITATIONS (CONTINUED)

tax reduction or other limitation contained within Article X, Section 20 of the Colorado Constitution, Section 29-1-301, Colorado Revised Statutes, or any other applicable law?

On May 8, 2012, the eligible electors of the District approved the following ballot measure:

Shall Willow Brook Metropolitan District taxes be increased \$210,000 annually in 2012 (representing total income of \$210,000 bringing the District back to 2012 collections), and by that amount plus inflation and local growth in every year thereafter, or by such lesser annual amount as may be necessary to pay the District's operations, maintenance, and other expenses; such taxes to consist of an ad valorem mill levy imposed without limitation of rate or with such limitations as may be determined by the District Board, and in amounts sufficient to produce the annual increase set forth above or such lesser amount as may be determined by the District Board; and shall the proceeds of such taxes and investment income thereon constitute a voter-approved revenue change in 2014 and each year thereafter and be collected and spent by the District each year, without limiting or affecting the collection or expenditure of other revenues and without regard to any spending, revenue-raising, tax reduction or other limitation contained within Article X, Section 20 of the Colorado Constitution, Section 29-1-301, Colorado Revised Statutes, or any other applicable law?

NOTE 10 - TAX, SPENDING AND DEBT LIMITATIONS (CONTINUED)

On November 6, 2018, the eligible electors of the District approved the following ballot measure:

Shall Willow Brook Metropolitan District debt be increased \$1,750,000, with a repayment cost of \$3,950,000; and shall Willow Brook Metropolitan District taxes be increased \$200,000 annually, or by such lesser annual amount as may be necessary to pay the district's debt: such debt to consist of general obligation bonds, special assessment bonds, revenue bonds, or other obligations, including contracts, issued or incurred for the purpose of paying, reimbursing, or financing all or any part of the costs of acquiring, constructing, relocating, installing, completing, repairing, replacing and otherwise providing, within or without the boundaries of the district, a complete potable and nonpotable water supply, storage, transmission, and distribution system, including but not limited to transmission lines, distribution mains and laterals, irrigation facilities, and storage facilities, together with all necessary, incidental, and appurtenant facilities, equipment, land, and easements, and extensions of and improvements to said facilities, such debt to bear interest at a net effective interest rate not in excess of 10% per annum, such interest to be payable at such time or times and which may compound periodically as may be determined by the district board of directors, such debt to be sold in one series or more at a price above, below, or equal to the principal amount of such debt and on such terms and conditions as the district board of directors may determine, including provisions for redemption of the debt prior to maturity with or without payment of premium in an amount determined by the district board of directors, such debt to be paid from any legally available moneys of the district, including but not limited to the proceeds of ad valorem property taxes, specific ownership taxes and special assessments; such taxes to consist of an ad valorem mill levy imposed on all taxable property of the district, without limitation of rate or with such limitations as may be determined by the district board of directors, specific ownership taxes and special assessments, and in amounts sufficient to produce the annual increase set forth above or such lesser amount as may be necessary, to be used solely for the purpose of paying the principal of, premium if any, and interest on the district's debt; and shall the proceeds of any such debt and the proceeds of such taxes, any other revenue used to pay such debt, and investment income thereon, be collected and spent by the district as a voter-approved revenue change, and be collected and spent by the district each year, without limiting or affecting the collection or expenditure of other revenues, and without regard to any spending, revenue-raising, tax reduction or other limitation contained within article x, section 20 of the Colorado constitution, section 29-1-301, Colorado revised statutes, or any other applicable law?

NOTE 10 - TAX, SPENDING AND DEBT LIMITATIONS (CONTINUED)

On November 6, 2018, the eligible electors of the District approved the following ballot measure:

Shall Willow Brook Metropolitan District debt be increased \$550,000, with a repayment cost of \$1,500,000; and shall Willow Brook Metropolitan District taxes be increased \$100,000 annually, or by such lesser annual amount as may be necessary to pay the district's debt: such debt to consist of general obligation bonds, special assessment bonds, revenue bonds, or other obligations, including contracts, issued or incurred for the purpose of paying, reimbursing, or financing all or any part of the costs of acquiring, constructing, relocating, installing, completing, repairing, replacing and otherwise providing, within or without the boundaries of the district, street improvements including but not limited to curbs, gutters, culverts, other drainage facilities, sidewalks, bridges, parking facilities, paving, lighting, grading, landscaping, and other street improvements, together with all necessary, incidental, and appurtenant facilities, equipment, land, and easements, and extensions of and improvements to said facilities, such debt to bear interest at a net effective interest rate not in excess of 10% per annum, such interest to be payable at such time or times and which may compound periodically as may be determined by the district board of directors, such debt to be sold in one series or more at a price above, below, or equal to the principal amount of such debt and on such terms and conditions as the district board of directors may determine, including provisions for redemption of the debt prior to maturity with or without payment of premium in an amount determined by the district board of directors, such debt to be paid from any legally available moneys of the district, including but not limited to the proceeds of ad valorem property taxes, specific ownership taxes and special assessments; such taxes to consist of an ad valorem mill levy imposed on all taxable property of the district, without limitation of rate or with such limitations as may be determined by the district board of directors, specific ownership taxes and special assessments, and in amounts sufficient to produce the annual increase set forth above or such lesser amount as may be necessary, to be used solely for the purpose of paying the principal of, premium if any, and interest on the district's debt; and shall the proceeds of any such debt and the proceeds of such taxes, any other revenue used to pay such debt, and investment income thereon, be collected and spent by the district as a voter-approved revenue change, and be collected and spent by the district each year, without limiting or affecting the collection or expenditure of other revenues, and without regard to any spending, revenue-raising, tax reduction or other limitation contained within article x, section 20 of the Colorado constitution, section 29-1-301, Colorado revised statutes, or any other applicable law?

NOTE 10 - TAX, SPENDING AND DEBT LIMITATIONS (CONTINUED)

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits will require judicial interpretation.

NOTE 11 – SUBSEQUENT EVENT

On May 28, 2020 the District entered into a loan in the amount of \$550,000 with InBank ("Loan"). The Loan is for a term of 10 years at a fixed interest rate for 5 years of 4.0%, adjusting on the 5th anniversary of the note date to the prevailing 5-year US Treasury rate plus 3.0% with a Floor Rate of 4.0%. The proceeds from the Loan are to be used to make improvements to the District's streets. Principal and interest on the Loan is payable semi-annually in June and December each year.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors Willow Brook Metropolitan District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund of Willow Brook Metropolitan District, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Willow Brook Metropolitan District's basic financial statements, and have issued our report thereon date June 19, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Willow Brook Metropolitan District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Willow Brook Metropolitan District's internal control. Accordingly, we do not express an opinion on the effectiveness of Willow Brook Metropolitan District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Willow Brook Metropolitan District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Directors Willow Brook Metropolitan District

Report on Compliance for Each Major Federal Program

We have audited Willow Brook Metropolitan District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Willow Brook Metropolitan District's major federal programs for the year ended December 31, 2019. Willow Brook Metropolitan District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Willow Brook Metropolitan District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Willow Brook Metropolitan District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Willow Brook Metropolitan District's compliance.

Opinion on Each Major Federal Program

In our opinion, Willow Brook Metropolitan District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2019.

Report on Internal Control over Compliance

Management of Willow Brook Metropolitan District, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Willow Brook Metropolitan District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Willow Brook Metropolitan District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
